Florida Veterinarian Accreditation
Section 1: Outline
I. Introduction:

The Division of Animal Industry is responsible for preventing, controlling, and eradicating certain infectious or communicable diseases and pests in livestock and other domestic animals in the state of Florida.

II. Purpose:

a. To qualify accredited veterinarians to perform accreditation work in the state of Florida.

b. To provide orientation to accredited veterinarians in regards to Florida laws pertaining to various animal disease prevention/control/eradication programs.

c. To provide information to accredited veterinarians about unique animal health-related programs in Florida.

d. To provide valuable contact information to assist accredited veterinarians in performing accreditation work.

III. Accredited Veterinary Functions and Responsibilities:

a. Primary responsibility is directed toward assuring that regulated animal diseases are not introduced into animal populations in other states or countries by:

   i. Assisting producers with selling, purchasing and transporting livestock

   ii. Containing the spread or outbreak of disease

   iii. Accommodating clients in meeting certification requirements for domestic and international shipping of pets

   iv. Working cooperatively with state and federal regulatory veterinarians in the prevention, control, and eradication of certain animal diseases

IV. Brief Overview of State Agencies Involved in Animal Disease Control Activities:

a. Florida Department of Agriculture and Consumer Services

   i. Commissioner: Adam H. Putnam

   ii. Comprised of 12 divisions including the Division of Animal Industry

b. Division of Animal Industry, aka, State Veterinarian’s Office

   i. Division of Animal Industry

   407 South Calhoun Street

   Tallahassee, FL 32399-0800

   (850) 410-0900

   (850) 410-0946 FAX

   Animal Industry Website
ii. Responsibilities:

1. Administration of animal health regulatory programs related to the prevention, control, and eradication of certain animal diseases.

2. Regulation of intrastate and interstate movement of animals.

3. Registration of livestock marks and brands and carcass hauler’s permits.

4. Laboratory support for veterinary practitioners for disease diagnostic purposes.

5. Animal and agricultural emergency response management for the State Emergency Operations Center (EOC).

iii. Comprised of 2 Bureaus

1. Bureau of Animal Disease Control (BADC)
   a. Administer and monitor disease prevention, control, and eradication program activities and help enforce regulatory compliance relating to animal movement.
   b. Conduct inspections at livestock sales, shows, exhibitions, and perform disease surveillance activities.
   c. Location:
      Mayo Building
      407 South Calhoun Street, Suite 332
      Tallahassee, FL 32399-0800
      (850) 410-0900
      (850) 410-0946 FAX

2. Bureau of Diagnostic Laboratories
   a. Provides laboratory diagnostic support for veterinarians in the state of Florida.
   b. Location:
      Bronson Animal Disease Diagnostic Laboratory (BADDL)
      P.O. Box 458006
      Kissimmee, FL 34745-8006
      (321) 697-1400
      (321) 697-1467 FAX
      BADDL Website
c. Other Agencies Involved in Animal Disease Control Activities:
   
i. Florida Fish and Wildlife Conservation Commission (FWC)
   620 South Meridian Street
   Tallahassee, FL 32399-1600
   Office (850) 488-4676; FAX (850) 921-6283
   Permits/Law Enf. (850) 488-6253
   FWC Website

   ii. Local Animal Control Agencies (County/City)
       Animal Control Website

   iii. Florida Department of Health (DOH), via Local County Health Units (LCHUs)
       2585 Merchants Row Blvd, Suite 215
       4052 Bald Cypress Way, A12 [Mail]
       Tallahassee, FL 32399-1720
       (850) 245-4401; FAX (850) 922-9299
       DOH Website

   iv. Board of Veterinary Medicine
       1940 North Monroe Street
       Tallahassee, FL 32399-1027
       (850) 717-1982
       Board of Veterinary Medicine Website

   v. United States Dept. of Agriculture/Animal and Plant Health Inspection
      Services/Veterinary Service (USDA/APHIS/VS)
      8100 Northwest 15th Place
      Gainesville, FL 32606
      (352) 313-3060; FAX (352) 313-3064
      USDA/APHIS Website

   vi. USDA/APHIS Import/Export Office
       5600 Northwest 36th Street
       Miami, FL 33126
       (305) 876-2200; FAX (305) 876-2201
       USDA/APHIS Import-Export Website

   vii. Florida Department of Business and Professional Regulation (DBPR)
        1940 North Monroe Street,
        Tallahassee, FL 32399
        (850) 470-1395
        DBPR Website
V. Reportable Diseases (USDA/APHIS and Florida):

a. Introduction:

Practicing veterinarians are the eyes and ears for animal disease control in the state of Florida. Regulatory veterinarians are considered to be the first line of defense for identifying and containing the spread of dangerous transmissible diseases of livestock.

b. What is a Reportable Disease?

Any animal disease having been identified by Florida Statutes (§ 585.15, F.S. or rule) or by the USDA, Code of Federal Regulations (9 C.F.R.) as a dangerous transmissible disease, and for which programs have been established to prevent, control, or eradicate such diseases.

c. Reportable Diseases:

i. Florida: Rule 5C-20.002 . . . .

...Each of the following pests or diseases is declared to be a dangerous, transmissible pest or disease of animals and to constitute an animal and/or public health risk. Any person who has knowledge of, or suspects, the existence of any of the following diseases or pests in the state shall immediately report suspicions or findings to the State Veterinarian. Office hours: (850) 410-0900; fax: (850) 410-0915; after hours: 1-(800) 342-5869; email: RAD@freshfromflorida.com.

ii. Federal Reportable Diseases:

1. Any diseases or suspected cases of foreign animal diseases listed under § 9 C.F.R. 71.3(b).

2. Any endemic disease for which USDA/APHIS has a disease control/eradication program listed under § 9 C.F.R. provisions (e.g., brucellosis, tuberculosis).

d. The “5 Ws” of Reporting Diseases:

i. **Who**: The practicing veterinarian is the first line of defense. DO NOT be afraid to report. There is no penalty for being wrong.

ii. **What**: Any animal diseases having been identified by Florida Statutes (§ 585.15, F.S. or rule) or by the USDA, Code of Federal Regulations (9 C.F.R.) as a dangerous transmissible disease, and for which programs have been established to prevent, control or eradicate such diseases.

iii. **Where**:

1. Division of Animal Industry
   407 South Calhoun Street
   Tallahassee, FL 32399
   850-410-0900 Office
   850-410-0946 Fax
   RAD@FreshFromFlorida.com
   Visit Website

2. USDA/APHIS Area Office
   8100 NW 15th Place
   Gainesville, FL 32606
   (352) 313-3060
   352) 313-3062-FAX
   Visit Website

iv. **When**: Report immediately! Do not delay!

v. **Why**:

1. Early reporting is the veterinarian’s ethical and professional responsibility.

2. Early reporting is required of accredited veterinarians and required of all veterinarians

3. Early reporting can save on economic losses to both government and producers.

4. Early reporting helps prevent sanctions placed on our state because of the spread of disease.
e. Disease Diagnostics and Laboratory Diagnostic Assistance Available:

   i. Federal/State-trained Foreign Animal Disease (FAD) Diagnosticians are available to assist in epidemiological investigations.

      USDA/APHIS Area Office
      8100 Northwest 15th Place
      Gainesville, FL 32606
      (352) 313-3060
      (352) 313-3064 FAX

   ii. State Diagnostic Laboratories:

      Bronson Animal Disease Diagnostic Lab (BADDL)
      2700 N. John Young Parkway
      Kissimmee, FL 34741
      (321) 697-1400
      (321) 697-1467 FAX
      [BADDL Website]

   iii. Federal Diagnostic Laboratories:

      USDA/APHIS
      National Veterinary Services Lab (NVSL)
      Ames, Iowa
      (515) 663-7200
      [Link to Laboratory Website]

      **Mailing Address:**
      USDA, APHIS, VS, NVSL
      P.O. Box 844
      Ames, IA 50010

      **Package Address:**
      USDA, APHIS, VS, NVSL
      1800 Dayton Avenue
      Ames, IA 50010
      (515) 337-7530

VI. Completion of OCVIs, Test Charts, Records, Reports, and Other Official Documents:

   a. Introduction:

      Veterinarians are conscientious about providing quality service to their patients and clients when it comes to practicing veterinary medicine and surgery. However, when it comes to completing paperwork, it often seems that their skills are lacking. More accredited veterinarians face disciplinary action because of the improper completion of paperwork than for any other reason.
b. Official Documents:

i. All forms, records, test charts, etc., used to document the work performed by an accredited veterinarian are legal documents.

ii. 9 C.F.R. Part 161.3(b) states:

... An accredited veterinarian shall not issue or sign any certificate, form, record, report, etc., until and unless it has been accurately completed, clearly identifying the animals to which it applies and showing the dates and results of any inspections, tests, vaccinations, or treatment the accredited veterinarian has conducted.

iii. All official forms completed by accredited veterinarians must be:
   1. Legible
   2. Complete
   3. Accurate

iv. Official documents must have the veterinarian’s handwritten signature.

v. When correcting official documents, write-overs and strikethroughs must be clearly marked, initialed, and dated by the veterinarian.

vi. Document Integrity:

Accredited veterinarians must be willing to apply the same ethical and professional standards in completing such documents as provided for in the care and treatment of their patients. Failure to use integrity in completing documents will result in:

1. An accreditation hearing for violations with possible loss of accreditation.
2. Potential lawsuits
3. Ultimately provides a great disservice to your clients

c. Examples of Florida OCVIs: (See Section 2)

i. Official Certificate of Veterinary Inspection for Livestock

ii. Official Equine Certificate of Veterinary Inspection

iii. Official Certificate of Veterinary Inspection for Interstate Movement of Dogs and Cats, and Other Non-livestock Species

iv. Official Certificate of Veterinary Inspection for Sale of a Dog or Cat
d. Electronic OCVIs:

CFR 160.1 allows digital signatures on electronic documents. Official digital OCVI providers are:

i. GlobalVetLink
   2625 North Loop Drive, Suite 2130
   Ames, IA 50010
   515-817-5703(Sales) -5704(Tech Support)
   GlobalVetLink Website

ii. Veterinary Services Processing Streamlining (VSPS)
   877-944-8457
   VSPS Website

iii. Vet Sentry
    12011 Highway 71 NE
    Spicer, MN 56288
    320-796-2599
    Vet Sentry Website

e. Sections of an OCVI:

   i. Name and complete address of consignor (the owner)
   ii. Name and complete address of consignee (the purchaser)
   iii. Individual animal identification
   iv. Description of animal (especially equine)
   v. Test dates, laboratory conducting the tests, and test results (if applicable)
   vi. Disease program status of state/herd of origin (if applicable)
   vii. Veterinarian’s official signature-both print and sign
   viii. Owner’s signature (if applicable)
   ix. Permit number (if applicable)

*Empty animal information spaces on an OCVI should be crossed through to prevent animals from being added to an officially signed OCVI at a later date.

f. Reproduction of Completed OCVIs:

   i. Copies are not acceptable official documents.
      1. Exception: When there are multiple shipments of animals requiring multiple loads:
         a. All animals in the shipment are individually identified on the original OCVI.
         b. All animals have the same farm of origin, and are consigned to a single destination.

   ii. Reproduction of blank OCVIs is ILLEGAL:

      § 585.145(3) F.S. states:
      "A person who forges, counterfeits, simulates or alters, or who knowingly possesses, uses, presents or utters any forged, counterfeited, altered or
simulated official certificate of veterinary inspection or any other document relating to animal health requirements or substitutes, represents, or tenders an official certificate of veterinary inspection or any other document relating to animal health requirements of one animal for another animal commits a felony of the third degree...

g. Security of Official Documents:

9 C.F.R. 161.3(j) states:
. . . an accredited veterinarian shall be responsible for the security and proposed use of all official certificates, forms, records, reports, tags, brands, or other identification devices and shall take reasonable care to prevent misuse thereof, and shall immediately report to the Area Veterinarian in Charge (AVIC) the loss, theft, or deliberate or accidental misuse of such.

h. Distribution of Completed Documents:

i. Distribution of documents should be done immediately after completion.

ii. Distribution is to be made in accordance with instructions on the documents or as instructed by the Division of Animal Industry or USDA.

i. Completion of EIA Coggins Test Record-Form VS 10-11 (or EIA Test Record Certificate on GlobalVetLink.com):

i. Refer to Rule 5C-18.003, (1), (c), (d), F.A.C.

ii. A correctly completed form must have:
   1. Owner’s location/address
   2. Horse’s location/address, if different from owner’s address
   3. A complete and accurate description of the horse;
      a. The drawing of the horse or digital image on GlobalVetLink
      b. A narrative description

iii. A negative test within the last 12 months is required for both interstate and intrastate movement of a horse and for change of ownership, exhibition, and trail rides, etc.

iv. Required for any age if not accompanied by a dam (an official test is required at 6 months and older even if accompanied by a dam).

v. An original or certified laboratory copy required for sale. A notarized copy is also acceptable for show, exhibition, etc.
VII. **Interstate Shipment and Export Requirements:**

a. Generally, most animals departing Florida for other states and/or other countries must be accompanied by a Florida or other officially recognized OCVI that has been completed by a Florida licensed and federally accredited veterinarian.

i. Must follow the specific requirements of the state or country of destinations. These requirements vary and are subject to change. Also, they must meet specific requirements laid out by the USDA/APHIS.

ii. Accredited veterinarians are responsible for maintaining standards that must be followed to retain their accreditation status. Knowing the requirements for the movement of animals is one of these responsibilities.

b. Assistance in Obtaining Current Movement Regulations:

Do not guess or refer to an old OCVI for answers, these requirements vary and are subject to frequent changes.

i. Call the Division of Animal Industry - (850) 410-0900

ii. Refer to the USDA/APHIS import/export page: [here](http://www.aphis.usda.gov/)

iii. Contact USDA/APHIS area office:

   8100 Northwest 15th Place
   Gainesville, FL 32606
   (352) 313-3060
   (352) 313-3064 FAX

iv. Call the State Veterinarian’s Office in the state of destination (best resource - see Section 5 for contact information).

VIII. **Pet Law**

a. Introduction:

i. The law was enacted by the 1991 Legislature and was implemented October 1, 1991.

ii. The law was placed under § 828, F.S. with enforcement authority given to local animal control agencies and/or law enforcement in October 1993.

iii. The Division of Animal Industry is responsible for providing the OCVIs for Interstate Sale of a Dog or Cat and enforcement of violations related to use of each OCVI.

b. Official OCVI for Sale of Dogs and Cats:

i. The Division of Animal Industry is required to produce and maintain a supply of OCVIs.
ii. These OCVIs can only be purchased, by faxing the Health Certificate Order Form to the Bronson Laboratory (321) 697-1467. Can only be used by Florida licensed and USDA accredited veterinarians.

iii. The OCVI for Intrastate Sale of a Dog or Cat (FDACS-09085) was revised 07/08 and is also available online from the Department website.

iv. A separate OCVI must be written for each dog or cat sold. A single OCVI on one dog or cat cannot be completed and photocopies made for additional animals in the litter.

1. § 585.145(3), F.S. states:
   ...A person who forges, counterfeits, simulates or alters, or who knowingly possesses, uses, presents or utters any forged, counterfeited, altered or simulated official certificate of veterinary inspection or any other document relating to animal health requirements or substitutes, represents, or tenders an official certificate of veterinary inspection or any other document relating to animal health requirements of one animal for another animal commits a felony of the third degree.

v. Veterinarians must retain their copies of all issued OCVIs for a minimum of one year from the date of examination of the dog or cat. (Note: As medical records, the Veterinary Practice Act, F.S. 474, requires retention for 3 years.)

c. Completion of OCVIs:

Must use an OCVI for Intrastate Sale of a Dog or Cat (FDACS-09085) only. (Not for other pets and not for interstate movement OCVI).

i. The OCVI must be complete, legible, and accurate.

ii. Must be completed no more than 30 days prior to sale of the dog or cat.

iii. Must have the printed or typed name and address of the examining veterinarian and his/her state license number.

iv. The OCVI must be signed by a Florida licensed and USDA accredited veterinarian with his/her official signature.

v. The OCVI must have the following:
   1. Printed or typed names and addresses of the seller and purchaser;
   2. The age of the animal;
   3. Sex, breed, color;
   4. Test performed;
   5. Vaccines and anthelmintics administered.

vi. The OCVI must have a written statement attesting:
   1. The dog or cat shows no signs of contagious or infectious diseases;
   2. The dog or cat shows no evidence of internal or external parasites, including coccidia and ear mites, and excluding fleas or ticks.
d. Required Vaccines, Anthelmintics, and Tests:
   i. The dog or cat must have been de-wormed, vaccinated, and had certain tests prior to purchase unless the accredited veterinarian certifies on the OCVI that to inoculate or de-worm is not in the best medical interest of the dog or cat.
   
   ii. The tests, vaccines, and anthelmintics must be administered no more than 21 days prior to purchase if the dog or cat is less than 4 months of age, and not more than one year before the sale if it is over 4 months of age.
   
   iii. The tests, vaccines, and anthelmintics must be administered by, or under the direction of, a Florida licensed and USDA accredited veterinarian.
   
   iv. The tests and their results, vaccinations administered, and anthelmintics administered must be shown on the OCVI.

e. Required Vaccines:
   i. Dogs:

      1. Bordetella
      2. Canine distemper
      3. Canine parvovirus
      4. Hepatitis
      5. Leptospirosis
      6. Parainfluenza
      7. Rabies, if older than 3 months

   ii. Cats:

      1. Calici virus
      2. Feline viral rhinotracheitis
      3. Panleukopenia
      4. Rabies, if older than 3 months

   iii. All vaccines must have the manufacturer’s name, vaccine type, lot (serial) number, expiration date, and date administered written on the OCVI.

f. Fecal Exam:

   Veterinarians must check for evidence of internal parasites, including hookworms, roundworms, tapeworms and whipworms. If the fecal exam shows no evidence of internal parasites, broad spectrum anthelmintics must be given to the dog or cat at the time of examination for sale.

   g. Additional Tests:

   i. If the dog is over 6 months old, it must be tested for heartworms and the results listed on the OCVI.

   ii. Every cat offered for sale must be tested for feline leukemia and the results listed on the OCVI.
h. Distribution and retention of OCVIs:
   i. The examining veterinarian must retain one copy of each OCVI on file for at least one year from the date of examination.
   ii. At the time of sale, the original must be given to the purchaser.
   iii. The seller must retain one copy for at least 1 year from date of sale.

i. Other Requirements of Pet Law:
   i. All dogs or cats regardless of who sells them, in the state of Florida, must comply with the requirements of the “Pet Law.”
   ii. County or city operated animal control agencies and registered nonprofit humane organizations are exempt.
   iii. Dogs or cats given away free of charge are exempt.
   iv. Must be at least 8 weeks of age prior to sale.
   v. Pet dealers, not private individuals, are required to provide certain remedies if the pet is found to have been unfit for sale.

j. Veterinarian Certification Required:
   i. Veterinarian certification is required for notification within 14 days, after sale, due to illness or disease.

   § 828, F.S. states:
   If, within 14 days following the sale by a pet dealer of an animal subject to this section, a licensed veterinarian of the consumer's choosing certifies that, at the time of the sale, the animal was unfit for purchase due to illness or disease, the presence of symptoms of a contagious or infectious disease, or the presence of internal or external parasites, excluding fleas and ticks....

   ii. Veterinarian certification is required for notification within 1 year, after sale, due to congenital or hereditary defect.

   § 828, F.S. states:
   or if, within 1 year following the sale of an animal subject to this section, a licensed veterinarian of the consumer’s choosing certifies such animal to be unfit for purchase due to a congenital or hereditary disorder which adversely affects the health of the animal...

k. Remedies For Pets Found To Be Unfit For Sale:
   i. The right to return the animal and receive a refund of the purchase price;
   ii. The right to return the animal and exchange the dog or cat;
iii. The right to retain the animal and receive reimbursement for reasonable veterinary costs for necessary services and treatment related to the attempt to cure or curing of the dog or cat;

iv. Reimbursement for veterinary costs may not exceed the purchase price of the animal.

IX. Enforcing Pet Law Violations:

i. Against Sellers/Dealers:

   Enforcement actions can be initiated against sellers/dealers (dealers and private sellers) by any state, county, or municipal law enforcement officer or by agents of animal control or humane societies properly appointed in accordance with § 828.03, F.S.

   1. Buyer must contact local law enforcement agency and request they file a sworn complaint for violation of § 828.29, F.S.

   2. Sworn complaints are forwarded to the local state attorney’s office for resolution.

ii. Against Veterinarians:

   1. Violations relating to forged altered, and/or improperly completed OCVIs are enforced by the Division of Animal Industry office.

   2. Concerns related to questionable veterinary practices concerning Pet Law are referred to the Department of Business and Professional Regulations (DBPR) and the Board of Veterinary Medicine.

iii. Violations may be handled by:

   1. Educational/warning letter from the Division.
   2. Review by the Board of Veterinary Medicine for possible disciplinary action.

X. Rabies Information:

a. Introduction

   Veterinarians play a strategic role in rabies control efforts throughout the state. It is important for each veterinarian to establish a good working relationship with county health department directors. County health departments are statutorily responsible for rabies control in Florida.

b. State Rabies Vaccination Law

   i. Vaccination Law:

      828.30, F.S. states:
      ...All dogs, cats, and ferrets four months of age or older must be vaccinated by a licensed veterinarian against rabies with a United States
Florida Veterinarian Accreditation
Section 1: Outline

Government approved vaccine. The cost of vaccination must be borne by the animal's owner.

ii. Upon vaccination against rabies, the licensed veterinarian shall provide a rabies vaccination certificate to the animal's owner and to the county/municipality animal control authority, with the following information:

1. License number of the administering veterinarian
2. Name, address, and phone number(s) of administering veterinarian and owner.
3. The species, age, sex, color, breed, weight, and name of the animal vaccinated as well as rabies tag and microchip numbers if available.
4. Vaccination date
5. Vaccine expiration date
6. Rabies vaccination must have the manufacturer’s name, brand, lot (serial) number, expiration date, date administered, and whether the vaccination is a primary or booster dose.
7. Signature of the licensed veterinarian.

iii. Exceptions to Rabies Vaccinations:

1. A dog or cat is exempt from vaccination against rabies if a licensed veterinarian has examined the animal and has certified in writing that at the time vaccination would endanger the animal's health because of its age, infirmity, disability, illness, or other medical considerations.
   a. An exempt animal must be vaccinated against rabies as soon as its health permits.

iv. Sanctions:

1. Violation of this section is a civil infraction, punishable as provided in § 828.27(2)
2. This section does not prohibit or limit municipalities or counties from enacting requirements similar to or more stringent than the provisions of this section for the implementation and enforcement of rabies-control ordinances. However, local governments shall not mandate revaccination of currently-vaccinated animals per product stated duration of immunity except in instances involving post exposure treatment for rabies.

c. Current Department of Health (DOH) Policy on Animals to be Tested for Rabies:

i. The DOH Bureau of Laboratories does not charge for rabies examination of “high risk” animals, e.g. raccoons, bats, bobcats, skunks, foxes, feral cats, etc.,
that have bitten or otherwise exposed (scratches contaminated with saliva, etc.)
people to rabies. Whenever possible, clinically normal dogs, cats, and ferrets that
expose people or domestic pets or livestock to rabies should be confined and
observed for clinical signs of rabies for ten (10) days. Clinically normal domestic
livestock involved with bites to people or domestic pets or livestock should be
observed for clinical signs of rabies for 14 days.

ii. The DOH has had a long-standing policy of discouraging rabies testing of
animals that pose no risk to an individual or the public at large. Naturally
occurring rabies among rodents and rabbits is extremely rare. Also cage-reared
animals of these species purchased at pet stores generally pose no risk to
individuals bitten during feeding or handling, if they have always been housed
indoors. If testing of no risk animals is desired by the owner or veterinarian, fee
based testing at Kansas State Rabies Laboratory is available. Samples must be
submitted by a licensed veterinarian and the submitter is responsible for all costs
including the cost of specimen shipping and testing.

d. Resource Information on Recommendations Regarding use of Rabies Vaccine and Rabies
Control Procedures:

i. The Florida Rabies Advisory Committee prepares the Florida Rabies Guidebook,
available on the DOH website.

ii. The National Compendium of Animal Rabies Control is a valuable resource
updated regularly by the Compendium of Animal Rabies Prevention and Control
Committee of the National Association of State Public Health Veterinarians
(NASPHV), and provides:

1. Principles of rabies prevention and control

2. Recommendations for parenteral animal rabies vaccination procedures

3. Information on approved vaccines marketed in the U.S. and NASPHV
recommendations.

e. When Animals Bite People:

i. Contact the county health department

ii. Dogs, cats and ferrets may be observed for 10 days for clinical signs of
neurologic disease - at the owner’s home if it is currently vaccinated or at a
veterinary clinic or animal control facility if it is unvaccinated. If the animal
develops signs of illness, the county health department should be contacted to
discuss whether the animal should be examined for rabies. Farm animals may be
observed for 14 days.

iii. Other animals should be euthanized and tested.
f. When Animals are Bitten by Potentially Rabid Animals:
   i. Contact animal control or the county health department.

   ii. Currently vaccinated dogs, cats and ferrets should be re-vaccinated as soon as possible and observed at the owner’s home for 45 days for clinical signs of rabies. A home quarantine agreement must be signed. Beginning in January 2016, dogs, cats and ferrets overdue on rabies vaccination but with documentation of previous rabies vaccination by a licensed veterinarian, may be managed as for currently vaccinated animals.

   iii. Unvaccinated dogs, cats, ferrets, horses, cattle or sheep, or cattle, sheep, or horses with lapsed vaccination may be euthanized and tested; or may be immediately re-vaccinated and observed for 180 days at a facility or other location approved by the County Health Department. Florida Department of Agriculture and Consumer Services, Division of Animal Industry will oversee livestock quarantines and also provide guidance should the owner wish to send a potentially exposed domestic food animal to slaughter.

   iv. Other animals should be euthanized. Contact the county health department

Florida Veterinarian Accreditation
Section 2: Important Information
Florida Reportable Disease List: (5C-20, F.A.C.)

Each of the following pests or diseases is declared to be a dangerous, transmissible pest or disease of animals and to constitute an animal and/or public health risk. Any person who has knowledge of, or suspects, the existence of any of the following diseases or pests in the state shall immediately report suspicions or findings to the State Veterinarian. Office hours: (850) 410-0900; fax (850) 410-0915; after hours 1 (800) 342-5869; Email: RAD@FreshFromFlorida.com.

### Intrastate Movement Requirements

<table>
<thead>
<tr>
<th>Animal Type</th>
<th>Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cattle</td>
<td>Accompanied by evidence of ownership, authority of possession, or a notarized affidavit of authority to transport.</td>
</tr>
<tr>
<td>Equine</td>
<td>Horses moving within the state must be accompanied by a record of a negative test for Equine Infectious Anemia (EIA) within 12 months or have a current Interstate Passport Card or a negative EIA Test Verification Card. Foals under six months of age accompanied by their negative dam are exempt.</td>
</tr>
<tr>
<td>Swine: Breeders &amp; Feeders</td>
<td>Swine may be moved from farm to farm, direct to specifically approved slaughter establishments through regular livestock auction sales to specifically approved slaughtering establishments without restrictions. Such movements must have possession of a notarized affidavit of authority to transport.</td>
</tr>
<tr>
<td>Feral Swine: Part a.</td>
<td>Definition: Swine that have lived all or any part of their lives in the wild as free-roaming animals. The transporter must have a Feral Swine Dealer Card, issued by the Division of Animal Industry.</td>
</tr>
<tr>
<td>Feral Swine: Part b.</td>
<td>Feral swine may be moved directly to a recognized slaughtering establishment by an approved Game Reserved or to an approved Feral Swine Holding Facility. Feral swine moved to other locations must be segregated from all other swine and be tested negative for Pseudorabies and Brucellosis on two consecutive test conducted at least 60 days apart.</td>
</tr>
<tr>
<td>Feral Swine: Part c.</td>
<td>Feral swine trappers/dealers must be registered with the division (ref. Rule 5C-21) and must obtain permits for movement of captured feral swine.</td>
</tr>
<tr>
<td>Llamas (New World Camelids)</td>
<td>Llamas may move from farm to farm with restriction. Such movements must be accompanied by evidence of ownership, authority of possession, or a notarized affidavit of authority to transport.</td>
</tr>
<tr>
<td>Goats</td>
<td>All goats moving intrastate or interstate must be officially and individually identified with USDA Official Ear Tags for the National Scrapie Eradication Program. Breed registry tattoos may be used for animals if accompanied by the breed registration certificate; this includes slaughter goats.</td>
</tr>
<tr>
<td>Sheep</td>
<td>All sheep moving intrastate or interstate must be officially and individually identified with USDA Official Ear Tags for the National Scrapie Eradication Program. Breed registry tattoos may be used for animals if accompanied by the breed registration certificate; this includes slaughter sheep.</td>
</tr>
</tbody>
</table>
### Domesticated Fowl and Ratites

Domesticated fowl and ratites may move from farm to farm, direct to specifically approved slaughtering establishments, or through regular livestock auction sales to specifically approved slaughtering establishments without restrictions. Such movements must be accompanied by evidence of ownership, authority of possession, or a notarized affidavit of authority to transport.

### Cervidae

Must have a prior permit from this office 850-410-0900.

---

**Note:**

Any movement from infected or quarantined herds must be accompanied by a permit from a representative of the Division.

---

If you have any questions regarding animal movement please call D.J. Conner at 850-410-0959
Documentation for Equine Interstate Movement

The Division of Animal Industry is now offering an equine passport laminated card, containing digital pictures of the horse, as an alternative to the current Equine Event Extension, which extends the Official Certificate of Veterinary Inspection (OCVI) from 30 days to 6 months.

The **Equine Interstate Passport Card** will be accepted by participating states as proof of a negative EIA test and an Official Certificate of Veterinary Inspection (health certificate), within the previous six months. When traveling, the OCVI and EIA do not need to accompany the Passport Card as it contains the OCVI, EIA, owner and veterinarian information. This card is not valid for change of ownership, only the original VS form 10-11, approved electronic EIA, or certified lab copy of the EIA test document can be used for this purpose.

The states currently honoring the Florida Equine Interstate Passport Card are: **Alabama, Arkansas, Georgia, Kentucky, Louisiana, Mississippi, New York, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia and West Virginia.**

The Equine Event Extension is a paper document and will continue to be offered by the State of Florida. The Event Extension, like the Passport Card, acts as an extension of the OCVI from 30 days to 6 months. When using the Equine Event Extension for interstate travel, the OCVI, current EIA, and Event Extension document must be carried.

The states currently honoring the Equine Event Extension are: **Alabama, Arkansas, Georgia, Louisiana, South Carolina, Virginia and West Virginia.**

The Division of Animal Industry is charging a fee of $10 for each **Equine Event Extension** application and $5 for each additional animal included on the same application. The **Equine Interstate Passport Card** will carry a fee of $15 for the first horse on the application and $5 for each additional animal listed on the same application.

Requests for applications or questions about the Equine Cards can be made through our Bartow office at 170 Century Blvd., (863) 578-1864 or by contacting the Tallahassee office at, 407 South Calhoun Street, Room 331 Mayo Building, Tallahassee, Florida 32399-0800, (850) 410-0952 or by e-mailing to ecards@freshfromflorida.com.

Individuals or veterinarians can request applications and take the digital images. The digital pictures required for the Passport Card are the entire left side, entire right side, and front view of the entire head. Each view should have approximately 10% background bordering all 4 sides of the image. The pictures can be submitted on a CD to our Winter Bartow office with a completed application.

The Florida Department of Agriculture and Consumer Services is now participating in an animal traceability program. Anyone requesting the Equine Interstate Passport Card will be required to participate in this program by registering the location where their horse resides. For more information or to request a premises registration form, you may e-mail the Division at animalid@FreshFromFlorida.com.

Section 3: Example Forms

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control numbers for this information collection are 0579-0036 and 0579-0332. The time required to complete this information collection is estimated to average 25 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

**UNITED STATES DEPARTMENT OF AGRICULTURE**
**ANIMAL AND PLANT HEALTH INSPECTION SERVICE**

**UNITED STATES INTERSTATE AND INTERNATIONAL CERTIFICATE OF HEALTH EXAMINATION FOR SMALL ANIMALS**

**WARNING:** Anyone who makes a false, fictitious, or fraudulent statement on this document, or uses such document knowing it to be false, fictitious, or fraudulent may be subject to a fine of not more than $10,000 or imprisonment of not more than 5 years or both (18 U.S.C. 1001).

**8. PERTINENT VACCINAL TREATMENT, AND TESTING HISTORY**

**9. REMARKS OR ADDITIONAL CERTIFICATION STATEMENTS (WHEN REQUIRED)**

**VETERINARY CERTIFICATION:** I certify that the animals described in box 7 have been examined by me this date, that the information provided in box 8 is true and accurate to the best of my knowledge, and that the following findings have been made (X applicable statements).

- [ ] I have verified the presence of the microchip, if a microchip is listed in box 7.
- [ ] I certify that the animal(s) described above and on continuation sheet(s), if applicable, have been inspected by me on this date and appear to be free of any infectious or contagious diseases and to the best of my knowledge, exposure thereto, which would endanger the animal or other animals or would endanger public health.
- [ ] To my knowledge, the animal(s) described above and on continuation sheet(s) if applicable, originated from an area not quarantined for rabies and have not been exposed to rabies.

**ENDORSEMENT FOR INTERNATIONAL EXPORT (IF NEEDED)**

**PRINTED NAME OF USDA VETERINARIAN**

**LICENSE NUMBER AND STATE**

**NAME, ADDRESS, AND TELEPHONE NUMBER OF ISSUING VETERINARIAN**

**SIGNATURE OF USDA VETERINARIAN**

**APHIS Form 7001 (NOV 2010)**

This certificate is valid for 30 days after issuance
