Our records indicate that you are currently operating under limited sales permit type:

If you had gross food sales of \$15,000 or more during the last twelve months or anticipate having more than \$15,000 in gross sales during the next twelve months, you do not qualify for a limited sales category.

If you did not have gross food sales of \$15,000 or more during the last twelve months, you must sign and have this form notarized to verify your limited sales status. Failure to sign and have this form notarized prior to renewal will result in the non-limited sales fee charged for this firm type.

I, _____ (owner of business), by my signature below and notarized statement affirm that my food business has gross food sales less than \$15,000 in the preceding 12 months, and furthermore, I do not anticipate gross food sales of \$15,000 or more during the next 12 months.

Anyone making a false statement with the intent of misleading an agent of the Department of Agriculture and Consumer Services shall be guilty of a misdemeanor in the second degree.
